Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The amendment to the drawings does not follow revised 37 CFR 1.121 as it was not accompanied by a marked-up copy of the drawings showing changes thereto. It is noted that the marked-up copy of the drawings must be labeled "Annotated Marked-up Drawings".

The substitute specification is objected to as it contains strike through and/or underlining on pp. 13,14,17.

It is noted that the substitute specification should be clearly labeled as such.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7,13,14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, it appears that Jepson format is being used however the claim is indefinite as to what the improvement is that is required for Jepson-type claims. Without the improvement it would appear that everything in the claim is admitted prior art. See MPEP 2129 and 608.01(m) and 37 CFR 1.75(e).

In claims 7,13,14, the claims are indefinite at X1 and X2 without the micron (μm) designation following each of them because they are referred to as particle sizes but do not have the micron dimension recited with them.

Art Unit: 1754

In claim 13, "the relation R" lack(s) proper antecedent basis in the claim(s). It appears that "relationship" was intended to be – relation – in claim 7.

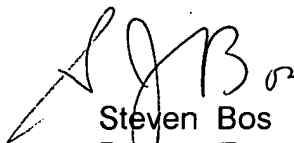

Claims 8-12 are objected to as dependent on a rejected base claim.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
